General Information:

Personalized tags may be ordered for most private passenger and commercial vehicles, and some motorcycle, bus, camper or antique vehicles. The combination of letters/numbers requested must not conflict with the regular number system and is subject to [State of Alabama Revenue Department](#) approval. A maximum of seven characters will be allowed. Our office will provide you with a registration receipt and a 60-day temporary tag. After the plate is manufactured, it will be mailed to your address in four or five weeks.

Picking your design and lettering can be time consuming. You can save time by visiting the Alabama Department of Revenue website at revenue.alabama.gov to see if your choice is available. The cost for reserving a personalized plate is \$2.00 and payment must be made online using either VISA or MASTERCARD. Once approved, the reservation will be valid for five business days

Fees:

The fee for personalizing most specialty tags is \$50.00. You may personalize the "Helping Schools" tag for \$15.00. This fee is added to your standard issuance fee and ad valorem assessments. If a personalized tag is stolen or lost, you will need to replace your tag. Contact the Calhoun County Commissioner of License office to find out what you need to do.
